

Bus Stop Addition

Materials:

Recording Sheet

Deck of cards:

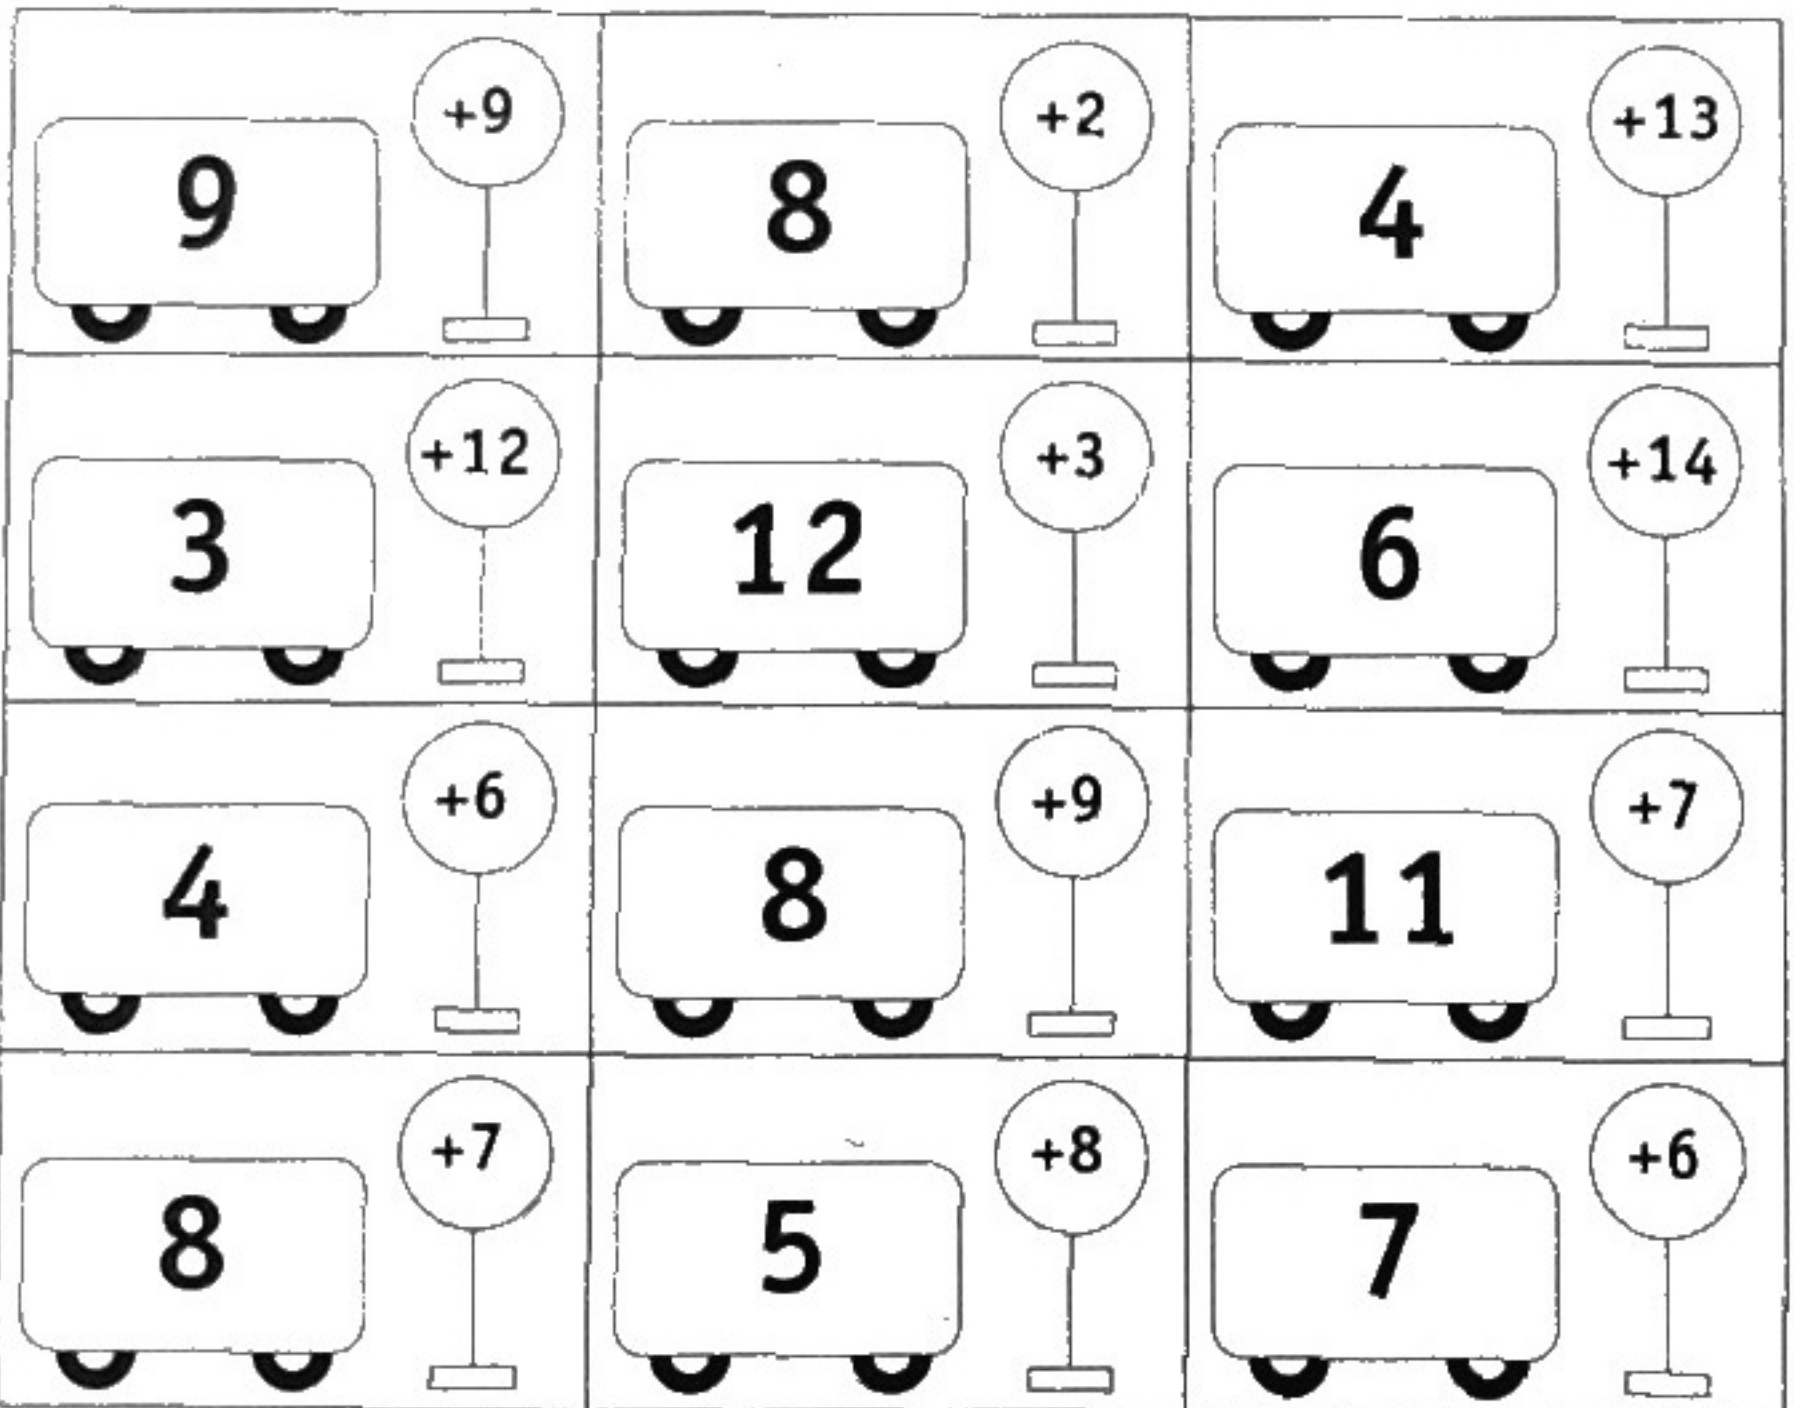

The number in the bus image tells how many passengers are on the bus as it approaches the bus stop. The round signs indicate the number of people at the bus stop, ready to enter the bus.

Directions:

1. Place cards face down in a stack.
2. Player One turns over a card.
3. Both players record the number of passengers on the bus and the number of people at the bus stop on the recording sheet.
4. Both players record the total number of passengers and compare results.
5. Player Two turns over a card and, again, all players show and compare their results.

- These cards can be made more durable by pasting them on oaktag and laminating them.
